

The C.L.A.W.S Adoption Questionnaire

If you are interested in adopting one of our cats or kittens, please complete this questionnaire. Completing this form does not automatically qualify you to adopt an animal from us. All applications are reviewed. You will be contacted within 10 working days after the questionnaire has been submitted. Please note that in some cases there maybe multiple applications for the same cat. Several factors are considered to determine an appropriate adopter for the cat's individual needs. Many of our rescues have been traumatized due to cruelty, abandoned by a previous owner, or subject to situations beyond their control. As a result, C.L.A.W.S feel it is important the new owner is willing to make the commitment to provide a loving,stable, and forever home.

Contact Number

Is there a particular cat or kitten you are hoping to adopt? Please give us the name of the cat or kitten, or describe the type of cat you are looking for.

List the breed and age of your current pets

Are your pets spayed/neutered?

Tell us about your previous pets. What happened to them?

Who is your vet?

List the names and ages of the family members who live in your household including yourself.

Is there anyone in your home that is allergic to cats? If so, please explain.

When you are gone, do your animals stay inside or outside?

How would you describe your household? (quiet, active, noisy, etc.)

Do you work full time / part time / Remote working?

Do you own or rent? If renting, do you have written permission from landlord to keep pets?

What will happen to your cat in the event you can no longer care for it?

What major life changes do you anticipate in the next few years? *E.g. Having a baby, moving, changing careers etc.

In the event that you move, what are your plans for your cat?

If you have cats now, are your cats indoor or outdoor? If outdoor, please explain.

Have you ever turned a cat into the shelter? If yes, please explain.

Kittens adopted will need to be spayed / neutered once of age (5 months) / over 2kg body weight - do you agree?

What else would you like us to know?
